## HOW TO MAKE A PROTOTYPE IN A DAY: FOR \$10 OR LESS.WITH NO SPECIAL TOOLS.AND NO SPECIAL SKILLS.NO MATTER HOW COMPLEX YOUR IDEA (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. This short book is the transcript of an interview I did explaining how to make a prototype as fast (and cheap) as humanely possible. No expert skills or fancy tools necessary. Just follow the simple instructions in this quick-reading book and you ll have a prototype done in a matter of weeks (or days). This book won t get you a spit-shined, packaged and perfect end product. But, it will get you a prototype good enough to test your ideas.show someone who can build it for you.or take to investors to secure funding. And get it done without waiting weeks or spending thousands of dollars in the process. And it s fun, fast, and effective. I know. Because this is the exact method I ve used to build hundreds of prototypes. My background is in mechanical engineering. I ve designed jet engine parts for huge military contractors.and.I ve seen this method used to design everything from motorcycle parts.to submarines.to expensive yachts. Big. Small. Simple. Complex. Doesn t matter. If you need a prototype, this will work for you. And let me warn you. Most inventors write this idea off. It s too easy. It s too simple. It s too cheap.they say. It won t work for MY invention. Nonsense. Because it s easy.simple.cheap, is why it works. And it is the exact method multi-billion dollar companies and professional engineers use every single day. So before you scoff at this, try it. You ll be surprised how quickly you get your idea out of your head and into the real world. The information will also help you save time and money if you decide to hire someone to create...
