It is about the "why" of VSTS: its guiding ideas, why they are presented in certain ways, and how they fit into the process of managing the software lifecycle. This book is the next best thing to having an onsite coach who can lead the team through a consistent set of processes. It is a framework for thinking about software projects in a way that can be directly toolled by VSTS. It presents essential theory and practical examples to describe a realistic process for IT projects. This is a book that any team using or considering VSTS should read. 255 pp. Englisch.
